**Should a new high school...(circle one for each question)**

2. a. Be phased in --OR-- b. Opened at Once  
3. a. Have specialized curriculum --OR-- b. be equivalent to HHS/PHS  
4. a. Have the same schedule as HHS/PHS -- OR-- b. have different/flexible times  
5. Have the house concept\* Yes \_\_\_\_ No \_\_\_\_

\*The house concept refers to a larger high school subdivided into multiple smaller high schools, with some overlap. This would create "smaller learning communities" and could potentially lower class sizes. For example, in a house concept students in a house would take their core classes together, have their own common area, principal, etc. It is basically multiple schools within a larger school. The overlap would occur for electives and science classes. Think Harry Potter.

**Do you think a third high school would improve the district? Why?**
